

WOOD PANELS

Introducing our luxurious wood panel collection, epitomising elegance and sophistication in interior design.

Our compact 15 x 60 cm panels combine eco-friendly materials and effortless installation for stunning interior design. Meticulously crafted with precision and attention to detail, these panels exude timeless beauty, creating a pure luxury ambiance. Handpicked from sustainably sourced timber, they embody opulence and environmental consciousness. With captivating finishes, tailor your design to perfection, be it contemporary, rustic, or opulent. Infusing warmth, character, and nature, they effortlessly elevate any space.

Engineered for acoustic insulation and energy efficiency, they minimise noise and reduce heating/cooling costs. Hassle-free installation with the interlocking system, they resist warping and wear. Extend beyond walls, from ceilings to cabinetry, let your creativity soar. With exceptional craftsmanship and customer satisfaction, our wood panel collection is a testament to creating extraordinary spaces.

Elevate your interiors to luxury and experience the transformative power of our stunning wood panels.

FREQUENTLY ASKED QUESTIONS

WHAT TYPES OF WOOD ARE USED IN YOUR PANEL PRODUCTS?

Our wood panel products are crafted using a variety of high-quality woods, including oak, maple, walnut, and cherry. Each wood type offers distinct characteristics, ensuring a diverse range of options to suit different aesthetics and design preferences.

HOW ARE YOUR WOOD PANELS MANUFACTURED AND PROCESSED?

Our wood panels are manufactured with meticulous attention to detail. We employ advanced woodworking techniques and modern machinery to ensure precision and quality. Our panels undergo a series of processes, including cutting, shaping, sanding, and finishing, to achieve a smooth and flawless surface that showcases the natural beauty of the wood.

CAN YOUR WOOD PANELS BE CUSTOMISED TO FIT SPECIFIC DESIGN REQUIREMENTS?

Absolutely! We understand the importance of personalisation in design. Our wood panels can be customised to meet your specific requirements. From selecting the wood species, finishes, and dimensions to incorporating unique patterns or designs, we offer a range of customisation options. Our team of experts will work closely with you to bring your vision to life and create wood panels that perfectly complement your project.

EASE OF APPLICATION

To install our wood panels, follow these simple steps:

- 1 Begin by preparing the surface, ensuring it is clean, dry, and free from debris.
- 2 Take accurate measurements and plan the layout of the panels accordingly.
- 3 Apply a high-quality construction adhesive, such as CT1 Adhesive, in a zigzag pattern or dots on the back of each panel.

Carefully position the panel onto the surface, pressing firmly for good adhesion.

Step back and admire the beautiful transformation your wood panels bring to your space. Enjoy the warmth and natural elegance they provide!
